Engineered Solutions

Industrial Films & Laminations

Industrial Films & Laminations

Our production capabilities include clear and foil laminations with available process or line printing up to eight colors. Our plant offers both extrusion and adhesive laminations with web widths up to 60 inches. We have the capability of producing rolls as small as 300 linear feet and jumbo rolls as long as 8,000 linear feet.

With the addition of a state-of-the-art 9 layer blown coex line, along with our 3 and five layer coex lines, we can engineer solutions to solve your toughest barrier and strength requirements.

With over 65 years of award winning experience, contact us to see what we can develop for you.

Industrial Converters/Craters

Cadillac Products Packaging Company has the largest variety of Mil PRF products, in stock, for your immediate needs. We are well known throughout the converting and crating industry for our quality, service and delivery. We strive every day to maintain that reputation.

As a recognized leader in the production of high quality coex sealant films to the converting industry, our expertise covers many substrates that other suppliers aren't willing to attempt.
